

Q3. Whether school Governance, Processes, Teaching / Learning Processes are standardised & structured as per National / International standards?

The school, from its governance and processes to its teaching/learning methodologies, is well benchmarked on national and international quality standards while adhering completely to all the rules and curriculum laid down by CBSE. Underlining the strong framework of its governance are such awards as the 21st Century Innovative & Transformative Award 2024, signifying fineness in leadership and innovation. The school's processes, more so digitalisation, were feted with the Star Education Award for the Most Digitally Updated School 2023, very telling of the commitment of this institution towards marrying the most advanced technology into everyday workings. Besides, teaching and learning methodologies in creativity and critical thinking are strictly designed to meet the CBSE board curriculum and earned accolades such as Global Innovative School Award 2019 in Dubai. These laurels, in an integrated way, point out the commitment of the school towards the sustenance of high-quality education and operational excellence, finally aligning with global and national standards.
