## From the Principal's Desk

To those who see with loving eyes, life is beautiful

To those who speak with tender voices, life is peaceful

To those who help with gentle hands, life is full

And to those who care with compassionate hearts, life is good beyond all measure!

Today, the role of a school is not only to pursue academic excellence but also to motivate and empower its students to be lifelong learners, critical thinkers, and productive members of an ever-changing global society. At Sanskar Public School, we provide an atmosphere to our students for multifaced development, where children are encouraged to manoeuvre their potential in the pursuit of excellence. This can only be possible in a holistic, student-centric environment.

Learning is not the progress limited to schools and colleges only, nor does it end with the conclusion of one's school career. It is indeed a lifelong process. This school is oriented to the total formation of a child and to the adaptation of various methods suiting the dynamics of the changing world in order to achieve common goals and objectives.

Dear students, it is my message to you all that the people of fine character live by their values. They are honest and are committed to truthfulness, word and deed. The true character thus encompasses the capacity for self-discipline.

Character creates self-respect, which in turn leads to high self-esteem. Maturity is reflected in all aspects of character - the decision we make, the friends we choose and the responsibilities we accept. Always remember to uphold the dignity of people. Be always ready to give preference to others. What you are is God's gift to you. What you become is your gift to God. Have something to live for. Bring out the best in you.

"With warm wishes and Almighty's blessings".

Mrs. Rashmi Sharma,  
PRINCIPAL  
SANSKAR PUBLIC SCHOOL

## Director's Message:

Education is a fundamental asset that triggers young minds to explore infinite possibilities in the world of excellence. It is the primary factor that helps an individual fight all challenges. The behavioural responses of individuals reflect the overall growth and development of society.

Our school has been designed keeping the future of children in mind. With an unparalleled infrastructure and a great all-around learning environment, the students find the school truly close to their hearts. The school focuses on essential life skills, along with the subjects of literacy, numeracy and sciences. With a belief in offering the best pedagogical practices followed around the world, Sanskar Public School helps to build strong foundations for future leaders.

It is very interesting to note that some of the most successful people in the world are the ones who've had the most failures.

Thomas Alva Edison made 10,000 unsuccessful attempts at inventing the light bulb, before getting the right one. As he famously quoted: "Many of life's failures are people who did not realize how close they were to success when they give up" J.K. Rowling's first Harry Potter book was rejected 12 times before it was finally published. Michael Jordan was dropped from his High School basketball team. Walt Disney was fired by a Newspaper Editor because "he lacked imagination and had no good ideas". These people succeeded against all odds and touched the lives of many people all over the world and made their countries proud. They succeeded because they understood that you can't let your failures define you, you have to let your failures teach you.

Also, one needs to unravel the power of visualisation. Visualise success as you dream and pursue your dreams with action. If you have done your best, you should not worry about the outcome. To succeed, your desire for success should be greater than your fear of failure.

Wishing you all the very best!

**Mr. Ramchandra Sharma**  
DIRECTOR  
SANSKAR PUBLIC SCHOOL

## Acting Director's Message:-

The first step into school is that giant step forward, where children embark on the great adventure of discovering the wide world outside and the depth of the world within. As we hold the little finger and guide the young ones forward, we realize our responsibility of nurturing their curiosity, igniting their minds to pierce the skies, helping them to discover the world of books and richness of experience, ponder on the "mystery of birds in the sky, the bees in the sun, the flowers on a green hill", and today master the magic of technology and the limitless span of cyber space.

We, at Sanskar Public School believe that education is a process of awakening individual potential to creative knowledge, but more importantly enlightening students with the wisdom that they must "never put a price tag on their heart and soul". A good career is important but a good character is paramount. We believe that 'individuals' are the atoms that hold tremendous power within to serve as agents of change and thus are confident that our students, enriched with a sense of high morality and social responsibility will be makers of a virtuous society. In a world of stiff competition, strife and unrealistic aspirations, it calls for sensitivity on our part as educators to help children understand that predicament is common to everyone. Problems and challenges need to be faced courageously with conviction in our principles and confidence in our inner strength and dreams.

**Mr. C.P Dewangan**

ACTING DIRECTOR,  
SANSKAR PUBLIC SCHOOL

## Editors Speak:

*I've always loved reading my schools' magazines, flipping through the pages and delving into the stories of the schools, alumni, faculty and students. It gives me a sense of pride for being a part of the community and a sense of inspiration. I've, in turn, used that inspiration to drive myself to create this magazine.*

*Very few have fully realized the wealth of sympathy, kindness and generosity hidden in the soul of a child. The effort of every educator should be to unlock that treasure and Sanskar Public School is an excellent example where everyone strives indefatigably for this.*

*One of the sectors that bounced back after the bad hit from Pandemic was the education sector. However, the speed at which this sector adopted and shifted to the alternate mode of imparting education, is indeed commendable. The education and its related research sectors are now experiencing a paradigm shift of moving from p-learning (platform) to e-learning (electronic) and now to m-learning (mobile). This technological advancement has opened up new avenues and prospects for students as well as teachers across the world.*

*Due to conditions of lockdown across the country, we were not able to release our 2020-21 issue, therefore the same has been integrated with the current issue of 2021-22.*

*When Sanskar Glimpses hits Sanskars' community's homes, I will have spent a grand total of one year in my position as an English Teacher here at the school. As I write this first "Letter from the Editor," I'm full of promise, hope and optimism for the future of Sanskar Public School and the Sanskar Glimpses magazine. This letter is a new addition to the magazine, as it is the microsite where we are reproducing magazine articles and adding bonus content for you to enjoy. These digital components are a new companion to the print publication that you know and love. We will continue to unveil new surprises for you throughout the next couple of issues.*

**Dayashankar Samal,**  
PGT English,  
Sanskar Public School

Dear readers,

Greetings and warm wishes to all of you.

I feel quite honoured to be a part of this masterpiece 'Sanskar Glimpses'. The garden looks stupendous only when it has a cover of green plants and multicoloured flowers. Sanskar Public School is a garden which is adorned by the beauty of its children, teachers and not to forget the support staff who work together hand by hand, day in and out to bring out a garden fully blossomed with the flowers like prosperity, culture and joy.

The prima facie concern of the school is to provide a safe and encouraging learning environment for the students.

Through constant motivation, appreciation, positive reinforcement and supplementing the prerequisites of the growing learners, we aim to indulge our students in meaningful learning experiences that will aid and abet them to face life's challenges and come out with overwhelming victory.

I am immensely filled with happiness in being a part of the editorial board which has put all its efforts to bring out the creative expressions of our talented 'Sanskarians', highlighting their achievements and compiling the overall academic and non-academic activities of the session. It was rather very tough and challenging to segregate the best among the best.

At last, I would like to conclude by extending my heartfelt gratitude to all the parents for their constant support and firm belief in Sanskar Public School.

I wish all the success to our beloved students!

Regards,

Deepika Behera

Every new morning at Sanskar Public School begins only after asking God to grant his grace and blessings to all of us. We at Sanskar Public School, start each new day by praying to God and spreading the fragrance of positivity all around. The students are motivated to start their new day with new hope and new strength.

During the morning assembly, all the students of a school stand at the same place, regardless of their age, culture, religion, gender, etc, along with the teachers. This instigates a feeling of unity which stays forever in the student's mind and it leads to a happy society.

Every morning assembly starts with the Morning Prayer, Thought For The Day, Information Of Latest Happenings, Inspiring Thoughts, Speech, National Anthem, etc. Special assemblies are conducted by students of the four houses - Asmita, Aradhana, Abhilasha and Astha. One can make friends with one's hostel fellows who have varied tastes and aptitudes which can help you out in studying as well. One may choose his friends according to his own likes and interests and can spend quality time with buddies even after the classes. Mutual discussions of their favourite film actors and actresses, long criticism of the latest picture seen by them, and story-telling, add charm to hostel life. Good arrangements of games and

sports, Sunday specials, and day-to-day merry-making make the hostel life a thing of envy for all. Apart from fun-leisure activities, hostellers have a unique unity and are always ready to help one another whenever needed.
