Online class Experience.

I'm sure no one could have imagined that the academic year would have ended this way. The disruptions from the global pandemic have brought a new normal in more ways than one. Online learning of school is one of them, and it comes with its own concerns & challenges.

When school were closed, many classes were held online. Many ^{online} platforms were changed but was later adjusted by students.

When it came to exams, the instructions were made very simple for childrens to understand. One of the challenges faced by the children was the process of uploading the exam papers.

Overall the children's experience during lockdown & with online learning has been as positive as it could be. The school support from the school has allowed it to function smoothly, with the help of Ryan Portal.

This has been an experience for all parents; teachers & students to remember throughout ~~their~~ our lifetime & there would be many stories to tell to the next generations to come.

Though these online classes were unplanned and unaccounted for you all have executed them so well. My child is always excited about these online sessions. As parents, this has given us the opportunity to experience and see what our children are learning through these interactive sessions. We all are very happy and thankful for the stupendous amount of effort put in to mitigate the challenges during the lockdown.

I feel happy as your efforts regarding your students. In the present critical situation students are in touch with subject just because of your responsible efforts. In the situation where students continue to make disturbance, your work is appreciable.

I really appreciate your efforts to make my ward ~~easy~~ study even in these kind of situation that the world is currently facing. We are happy that children are taking these online seriously and I hope these classes will help students to get better results in even these kind of situation.

"As we all know, the academic year 2020-21 started as an unprecedented situation, and especially for the class 10 students, it was challenging and of great concern. I was really surprised about how orchestrated and organized online class was from the beginning. In the beginning, as a parent, I was little concerned about the start of this journey by my son, in the form of online learning. However, as days passed, I truly realized the great job, patience, and dedication, the teachers are putting in daily and I truly feel blessed to give my child the opportunity to be a Ryanite. The teacher's effort and motivation have stood out above all and I am confident that the online classes were truly benefitting my son and co-students in their best possible means."

During this hard times the school has taken good efforts by online teaching and learning to keep the education going on. The school took great efforts by preparing power-point presentation showing videos on the topic and by giving quiz for the topic so that students have fun. It was good to see the students taking part for the same.
