Which reflects our commitment and perseverance towards the cause, as it help us in coupling our evaluation process with the implementation process.**

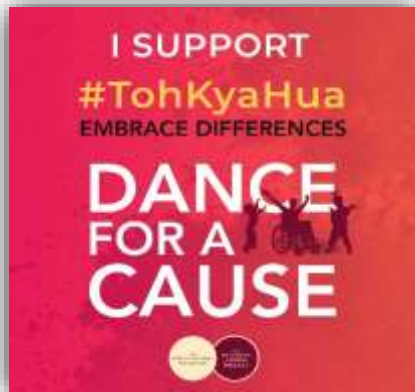

Internship placement of different rehabilitation professionals such as Occupational Therapist, Physiotherapists and Architecture, is also a part of our capacity building process.

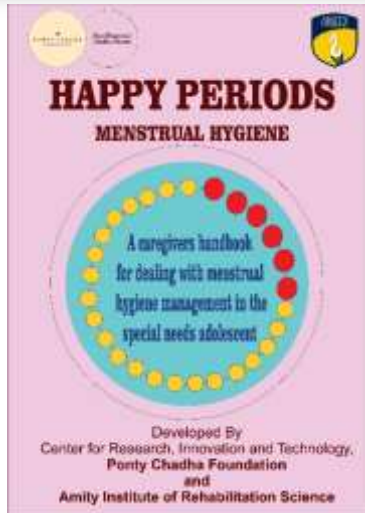

# Awareness Drives

The foundation realizes the value of creating awareness, as it opens the horizon and empowers a person to realize the areas of strength and weakness.

We understand that such drives not only increase the enthusiasm of the masses but also act as a key for mobilizing resources and knowledge at the local level.
