

Experience with Online classes

Firstly I would like to thank the school administration to conduct online classes in April which is the normal start of academic year. The kids had enjoyed their online class as the teachers could also show them video and games and quiz related to their lessons to grasp the knowledge. They had also followed the routine of Assembly followed by lectures by lunchtime followed by dispersal by 2:45pm.

The teachers also gave notes on time as given in normal school and submission was taken properly with due respect. They also gave assignment related to the lectures which were very useful as they helped in the preparation of exams and they were checked and the teachers told if there was any mistake in the assignment given by the student.

All the exams of midterms and summative tests were online it also decreased the burden on the students of leaving 4 clips at a time. The exams conducted on google form and exam-net were very good and helped the students to figure out how the technology works.

FOR EDUCATIONAL USE

I as a parent am very thankful to the teachers and the school management for the conduction of online lectures. I thank you for handling this unprecedented ~~academic~~ academic year with dedication and rising to the call of being an educator.
