The Ryan International ICSE
Malad (W)

I am Mahesh Yohani, Mother of Rashi Yohani. I would like to express our gratitude to entire school faculty on behalf of all students for all that you and your team have done so far for all the students during lockdown.

Since last March, we all are facing this COVID-19 Pandemic and all our lives changes. But you brought a new innovation of teaching on Zoom & Topper OS platform, so that studies of students couldn't suffer. I felt my child is very luck to study in Ryan ICSE Malad, where all teachers are taking so much effort to make study easier. Teachers are showing slides and PPT to make lessons easier. They are listening to kids and clearing all their doubts. Quizzes after each lesson helps all students to clear all concepts. Exams, activities, zonal activities etc. conducted by school and teachers, helps students to grow up educated. §

All students are missing their school very badly, but at the same time, love and affection, given by teachers during

online classes is very kind. I am very thankful to all teachers.
