

Testimonial by parent of Mst. Hridhaan Mavani, Roll no.16, IV-D, RIS Malad

The amount of patience and adaptability that the teachers at RIS-Malad have shown during the lockdown is commendable. As parents, we were very concerned for our child's education, whether he will be able to grasp concepts well via a 16 inch screen. The lecturers made sure that each child understood how to use the softwares – Zoom and Toppr. They came up with new and innovative learning techniques such as quizzes , videos and engaging assignments that had the minds running! All our concerns faded away with each session our child attended. The technicians and the teachers really aided every student during exams and made sure each paper was duly submitted. They organized all lectures in a manner which was easy to comprehend for students and parents alike. Ending on a grateful note, we , as parents, are thankful for the keen and personal attention of the class teacher, Alpa miss, who made sure that every concept was understood and embedded beyond examinations . She has made Hridhaan quite interactive in the virtual classroom and addressed every concern , if any.

Congratulations to the entire team at Ryan for making this academic year successful!
