Hi ,

I feel overwhelmed with my child's improvisation in all aspects.

We as a parent never expected that she'll have this kind of transformation in academics, extracurricular activities.

All credits to Varalakshmi & Kavitha Madam for bringing & being such a difference in child's initial stage.

Without **appreciating** them we'll never feel complete about this academic year.

Special mention: sports day dance & annual day dance were top notch, thank you once again to Varalakshmi madam for making my child perform flawless.

We literally feel valued in choosing MLZ.

Regards,
Subash.M

Dear Madam/Sir,

I am father of Yashwini studying in 6A.

We attended the PTM on 05 Nov 2022 and would like to place on record our **appreciation** to the teachers for all their hard work in nurturing the students. The sincerity and integrity of teachers is a very important factor for the growth of students and sustaining good standards of education.

However, it is a general observation that the teachers are leaving the school in mid-session which breaks the continuity and flow to which the students are used to thereby breaking the momentum set in the subject. I can guess that the school administration would have taken best effort to avoid such developments but it doesn't augur well. I personally see that each part of the communities which include students- parents, teachers and administration have to stay invested for the long term if we want to achieve growth and success for children.

Please consider this suggestion for bringing an impact in the area of nurturing our teachers in a manner that they remain associated with school for longer term to see their children graduate from school successfully.

The opinion has been expressed with good intention. I am a well-wisher of the school since I want my daughter to carry the best memories of her school where she is spending her formative years.
